# QHP APPLICATION STATE REVIEW TOOLS USER GUIDE: DATA ANALYSIS

## INTRODUCTION

The Qualified Health Plan (QHP) Application State Review Tools are a set of Excel-based evaluation services that states can use to evaluate QHP applications for compliance with Federal certification standards. The QHP Application State Review Tools are comprised of six tools: (1) Master Review Tool; (2) Formulary Tool; (3) Cost Sharing Tool; (4) Essential Community Provider (ECP) Tool; (5) Meaningful Difference Tool; and (6) Non-Discrimination Benefit Review Tool. The ability of a state to use the automated portions of these tools is contingent upon the state’s use of the Federally developed standard data collection templates for its QHP applications (e.g., Plans and Benefits templates). The QHP Application State Review Tools are offered as one methodology for states performing plan management activities, regardless of Marketplace<sup>1</sup> model, to review each of the required standards.

This user guide follows [QHP Application State Review Tool User Guide: Loading the Data](#) and assists states that are using the QHP Application State Review Tools with review of QHP plans’ compliance with certification standards. While [QHP Application State Review Tool User Guide: Loading the Data](#) leads state reviewers through loading and running the tools, this user guide explains how to analyze and validate the review tools output data and track the results.<sup>2</sup> It provides step-by-step instructions for reviewing each QHP certification standard in the Master Review Tool, including the process for validating results from stand-alone tools. The table below lists the QHP certification standards, indicates which standards can be evaluated by using the tools, and includes a list of the sources needed to perform each proposed review.

| QHP Certification Standard | Proposed Approach for Reviewing QHP Certification Standard  | Master | Stand-Alone | Proposed Sources for Reviews  |
|----------------------------|---|--------|-------------|---|
| Accreditation              | Ensure compliance with proposed accreditation timeline. Collect and verify information on issuers’ existing accreditation during issuer application period for use in determining if QHP meets accreditation requirement. | ✓      |             | <ul style="list-style-type: none"> <li>• Issuer Applications</li> </ul>         |
| Program Attestation        | Accept issuer attestation of compliance with regulation (note that Marketplace Final Rule defers to existing state marketing laws) and conduct post-certification monitoring.   | ✓      |             | <ul style="list-style-type: none"> <li>• General Issuer Attestations</li> </ul> |

<sup>1</sup> The QHP Application State Review Tools refer to Health Insurance Marketplaces as "Exchanges". This guide has been updated to be consistent with the current naming convention, Marketplaces, and thus the word "Exchanges" should be used interchangeably with the word "Marketplaces".

<sup>2</sup> For assistance with loading plan data into the tools, please see [QHP Application State Review Tools User Guide: Loading the Data](#).

| QHP Certification Standard                  | Proposed Approach for Reviewing QHP Certification Standard  | Master | Stand-Alone | Proposed Sources for Reviews   |
|---|---|--------|-------------|--|
| SHOP Tying                                  | Confirm issuer compliance with SHOP Tying Provision; if noncompliant, confirm satisfactory justification has been provided.   | ✓      |             | <ul style="list-style-type: none"> <li>SHOP Tying Provision (45 CFR 156.200(g))</li> <li>Provider SHOP Tying Justifications</li> </ul> |
| Essential Health Benefits Standards         | Confirm that the plan being reviewed complies with standards for the provision of essential health benefits (EHB) consistent with Federal rules.  | ✓      |             | <ul style="list-style-type: none"> <li>Plans and Benefits Templates OR</li> <li>Form Filings</li> </ul>                                |
| Essential Community Providers (ECP)         | Collect issuer data on ECPs included in each network. Verify whether the issuer's network meets the regulatory standard consistent with Federally-facilitated Marketplace (FFM) policies and a reasonable interpretation of the regulation.   | ✓      | ✓           | <ul style="list-style-type: none"> <li>Service Area Templates</li> <li>ECP Templates</li> <li>Plans and Benefits Templates</li> </ul>  |
| Formulary                                   | Ensure compliance with EHBs and check for discrimination by counting drugs in each therapeutic category and class.  | ✓      | ✓           | <ul style="list-style-type: none"> <li>Formulary Templates</li> <li>Justification Documents</li> </ul>                                 |
| Actuarial Value and Cost Sharing Reductions | Verify that the QHP meets applicable actuarial value (AV) standards and cost-sharing reduction (CSR) requirements, consistent with Federal rulemaking.  | ✓      | ✓           | <ul style="list-style-type: none"> <li>Unified Rate Review Templates</li> <li>Plans and Benefits Templates</li> </ul>                  |
| Meaningful Difference                       | Ensure QHP applications are "substantially different" from issuer's other applications so that consumers are not likely to have difficulty distinguishing among the issuer's offerings.   | ✓      | ✓           | <ul style="list-style-type: none"> <li>Plans and Benefits Templates</li> </ul>   |
| Discriminatory Benefit Design               | Conduct plan-level analyses targeting areas where discrimination would most likely occur, consistent with applicable regulations, to ensure that issuers do not employ benefit designs that discourage enrollment of individuals with significant health needs.   | ✓      | ✓           | <ul style="list-style-type: none"> <li>Plans and Benefits Templates</li> </ul>   |
| Service Area                                | Verify that each service area meets geographic standards set forth in Exchange Final Rule and is non-discriminatory (e.g., service areas of at least an entire county).   | ✓      |             | <ul style="list-style-type: none"> <li>Service Area Templates</li> </ul>   |
| Network Adequacy                            | Develop a process for evaluating network adequacy consistent with the Final Rule on the Establishment of Exchanges and Qualified Health Plans that includes one of the following operational procedures: current or proposed state network adequacy review, accepting attestation from an accredited issuer, or requiring issuer to submit a network adequacy plan. | ✓      |             | <ul style="list-style-type: none"> <li>Network Adequacy Section of QHP Application</li> <li>Network Access Plan</li> </ul>             |

| QHP Certification Standard | Proposed Approach for Reviewing QHP Certification Standard  | Master | Stand-Alone | Proposed Sources for Reviews |
|----------------------------|---|--------|-------------|------------------------------|
| Licensure and Solvency     | Verify licensure and good standing with state Department of Insurance (DOI) or collect documentation from issuer. |        |             |                              |

## USING THIS GUIDE

You may find it helpful to skim the guide to get a sense of the following characteristics:

- Items that appear in italics are *features*. E.g., “Open the ECP *Output* tab.”
- Items that are in bold type are **functions**. E.g., “Select **Met.**”
- For space considerations, screenshots of Excel worksheets may not include the full data picture.
- Each section of this user guide corresponds to a tab in the Master Review Tool. Tabs are ordered consistent with how they appear in the Master Review Tool.

## QHP APPLICATION STATE REVIEW TOOLS OVERVIEW

Refer to the [QHP Application State Review Tools User Guide: Loading the Data](#) to see a list of all the documents and templates that were used to populate and run the Master Review Tool. The tools listed and described in the table below offer one methodology for reviewing the required standards. States may use all, none, or only portions of the review tools.

These tools can only be run for plans that are intended to be offered inside of the Marketplace, plans that are intended to be offered outside of the Marketplace, or for standard plans that are intended to be offered both inside and outside of the Marketplace. All of the review standards apply to plans that are inside the Marketplace, but not all of them apply to plans that are outside of the Marketplace. The Master Review Tool will grey out reviews when they are not applicable on the *Review Summary* tab, and plans offered outside of the Marketplace will not be listed on the tabs of the standards which are not applicable. The Non-Discrimination and Cost Sharing tools can be run for plans that are offered inside and outside the Marketplace, and the tools themselves contain further instructions on how to run them. The Formulary Tool can also be run for plans that are offered inside and outside the Marketplace, since it works at a drug list level, and hence works for all drugs lists regardless of which plans they are assigned to. The Meaningful Difference and ECP Tools are not to be used for plans outside of the Marketplace, since the Meaningful Difference and ECP standards only apply to plans that are inside of the Marketplace.

| QHP Application Review Tool              | Function  |
|--|---|
| Master Review Tool                       | <ul style="list-style-type: none"> <li>• Used to perform the reviews for several required standards.</li> <li>• Contains proposed step-by-step review processes for each standard.</li> <li>• Includes additional direction when a stand-alone tool (described below) may help with a particular review.</li> </ul> |
| Essential Community Providers (ECP) Tool | <ul style="list-style-type: none"> <li>• Calculates the total ECPs an issuer has in a service area.</li> <li>• Compares the total ECP number to the ECPs available in that service area.</li> </ul>   |

| QHP Application Review Tool            | Function   |
|--|--|
|  | <ul style="list-style-type: none"> <li>• Confirms if the percent of ECPs covered is above a given threshold.</li> </ul>  |
| Formulary Tool                         | <ul style="list-style-type: none"> <li>• Assists in the drug counting service on Health Insurance Oversight System (HIOS).</li> <li>• Ensures that the drug count for each drug category and class meets or exceeds the state's benchmark.</li> <li>• Reviews for the greater of one in each U.S. Pharmacopeia (USP) Category/Class as well as the benchmark counts.</li> </ul>            |
| Cost Sharing Tool                      | <ul style="list-style-type: none"> <li>• Conducts four cost-sharing standards analyses (when applicable to the specific plan):               <ul style="list-style-type: none"> <li>○ Out-of-Pocket Maximum (OOPM) Review,</li> <li>○ Small Group Deductible (SGD) Review,</li> <li>○ Cost-Sharing Reduction (CSR) Review, and</li> <li>○ Catastrophic Plan Review.</li> </ul> </li> </ul> |
| Meaningful Difference Tool             | <ul style="list-style-type: none"> <li>• Compares all plans an issuer offers to identify multiple, identical plans that are offered in the same counties.</li> </ul>   |
| Non-Discrimination Benefit Review Tool | <ul style="list-style-type: none"> <li>• Cross-checks all state plans against predetermined benefits.</li> <li>• Determines coverage discrimination when a benefit has significantly higher copay or coinsurance, or a significantly lower quantitative limit than most other plans.</li> </ul>  |

## II: ACCREDITATION REVIEW

The Accreditation review ensures that the issuer is accredited by the National Committee for Quality Assurance (NCQA) or URAC, or is working toward accreditation. Accreditation is reviewed at the issuer level rather than the plan level.

1. Review issuer accreditation to determine if the provider is accredited by NCQA or URAC using the issuer application and populate the Accreditation review (in the Master Review Tool *Accreditation* tab), with **Met** or **Not Met** accordingly.
2. As you complete the review for each issuer, the *Review Summary* tab will auto-populate the results for each plan.

|   | A                                  | B           | C                                | D   | E  | F                  | G       | H     |
|---|------------------------------------|-------------|----------------------------------|---|--|--------------------|---------|-------|
| 1 | Accreditation Review Process Steps |             |                                  |   |  |                    |         |       |
| 2 |                                    |             |                                  |   |  | Validation Results |         |       |
| 3 |                                    |             |                                  |   | HIOS Issuer ID:  | 18637              | 30942   | 33674 |
| 4 | Review                             | Review step | Review description and procedure | Step description  | Source   |                    |         |       |
| 5 | Validation 1                       |             |                                  |   |  |                    |         |       |
| 6 | 1                                  |             | Review issuer accreditation.     |   | Issuer application (questions)   | Met                | Not Met | Met   |
| 7 | 1                                  | a           |                                  | Ensure the issuer is accredited by NCQA or URAC, or is assumed to be working toward accreditation. If yes, mark as met. If no, mark as not met. |  |                    |         |       |
| 8 |                                    |             |                                  |   | Based on the previous validation steps, the accreditation review requirement for this issuer is: | Met                | Not Met | Met   |
| 9 |                                    |             |                                  |   |  |                    |         |       |

To review issuer accreditation, determine if the provider is accredited by NCQA or URAC...

...Then, using the drop down menu in each cell, mark whether the provider met the accreditation requirement or not

- After you have manually populated **Met** or **Not Met** for each issuer's plan in the Master Review Tool *Accreditation* tab, open the Master Review Tool *Review Summary* tab to see the auto-populated results

| Section/Standard    | Function of Review  | Met | Met | Met | Met |
|---------------------|---|-----|-----|-----|-----|
| Accreditation       | Ensure the issuer is accredited by NCQA or URAC, or is assumed to be working towards accreditation.                         | Met | Met | Met | Met |
| Program Attestation | Collect issuer attestation to meeting state marketing standards.  | Met | Met | Met | Met |
| SHOP Tying          | Confirm issuer compliance with SHOP Tying Provision, if noncompliant, confirm satisfactory justification has been provided. | Met | Met | Met | Met |
| EHB                 | Ensure that the QHP template covers every benefit covered in the state benchmark and do a manual check for substitutions.   | Met | Met | Met | Met |

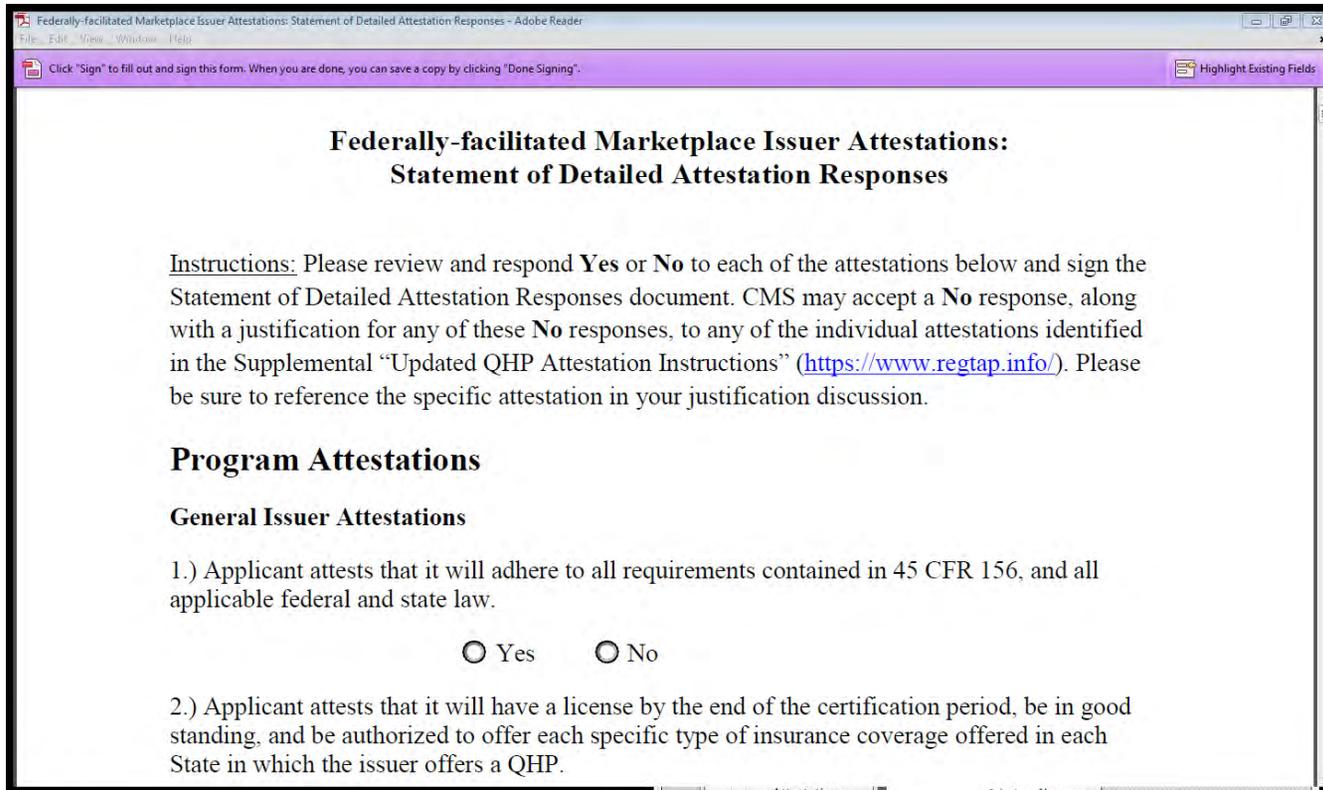

Open the Master Review Tool *Review Summary* tab to see the auto-populated review results.

- Save the Master Review Tool after you have completed the *Accreditation* review.

### III: PROGRAM ATTESTATION REVIEW

The *Program Attestation* review evaluates QHP applications for completed issuer attestation. The [QHP instructions document for Program Attestations](#) lists the attestations for which a “No” answer is acceptable.

1. **Use the General Issuer Attestation to populate the *Program Attestation* review** (in the Master Review Tool *Program Attestation* tab) for each issuer with **Met** or **Not Met**, accordingly.

The screenshot shows a PDF document in Adobe Reader. The title is "Federally-facilitated Marketplace Issuer Attestations: Statement of Detailed Attestation Responses". The document contains the following text:

**Federally-facilitated Marketplace Issuer Attestations:  
Statement of Detailed Attestation Responses**

Instructions: Please review and respond **Yes** or **No** to each of the attestations below and sign the Statement of Detailed Attestation Responses document. CMS may accept a **No** response, along with a justification for any of these **No** responses, to any of the individual attestations identified in the Supplemental “Updated QHP Attestation Instructions” (<https://www.regtap.info/>). Please be sure to reference the specific attestation in your justification discussion.

**Program Attestations**

**General Issuer Attestations**

1.) Applicant attests that it will adhere to all requirements contained in 45 CFR 156, and all applicable federal and state law.

Yes     No

2.) Applicant attests that it will have a license by the end of the certification period, be in good standing, and be authorized to offer each specific type of insurance coverage offered in each State in which the issuer offers a QHP.

Master Review Tool\_v2.xlsx [Read-Only] - Microsoft Excel

| Program Attestation Process Steps |             |  |  | Validation Results |       |         |       |
|-----------------------------------|-------------|--|--|--------------------|-------|---------|-------|
| Review                            | Review step | Review description and   | Step description   | HIOS Issue ID      | 16637 | 30842   | 33674 |
| Program Attestation Validation 1  |             |  |  |                    |       |         |       |
| 1                                 |             | Confirm that general issuer attestation section response is completed.     | Attestation  |                    |       |         |       |
| 1                                 | a           |  | Check general issuer attestation to determine whether the issuer answered "yes" or "no" to this section. If the issuer answered "no" go to step 1b. If the issuer answered "yes" mark as met.  |                    |       |         |       |
| 1                                 | b           |  | If the issuer provides a "No" response to one or more groupings of attestations, the applicant must complete a single Statement of Detailed Attestation Responses document available at <a href="https://zone.cms.gov/">https://zone.cms.gov/</a> and <a href="http://www.Regap.info">http://www.Regap.info</a> , to detail how it is responding to each of the individual attestations in each grouping. The issuer must provide an answer to each individual attestation in the Statement of Detailed Attestation Responses. For any attestation listed with an asterisk (*) in the QHP Instructions to which the issuer provides a "No" response, the issuer must also submit a justification as to why the issuer is not attesting. This document will be uploaded into the Other file upload in the Benefits & Service Area Module of the HIOS QHP Application system. Attestations without an asterisk are required and must be marked as "yes." If there is a "No" response to a question without an asterisk, mark as not met. |                    | Met   | Not Met | Met   |
| 1                                 | c           |  | Check that a justification is provided for those attestations with asterisks in the QHP Application Instructions document which are marked "no." These justifications should be complete and meet the parameters provided in the Statement of Detailed Attestation Responses. Because these attestations with asterisks are optional, if the justification is missing you should still mark as met, but you may make a note if you would like to request that the issuer resubmit with the justification.  |                    |       |         |       |
| Program Attestation Validation 2  |             |  |  |                    |       |         |       |
| 2                                 |             | If applicable, confirm that the compliance plan is completed and uploaded. | Attestation  |                    |       |         |       |
|                                   |             |  | The submission of a compliance plan is optional, but if the issuer answered "yes" to the compliance plan attestation   |                    |       |         |       |

Use the drop-down menus to indicate if provider attestations to the compliance elements are **Met** or **Not Met**.

2. The worksheet determines overall compliance for each provider based on the *Validation Results (Met or Not Met)* for the attestation requirements.

| Program Attestation Process Steps |             |   |   |  | Validation Results |         |       |
|-----------------------------------|-------------|---|---|--|--------------------|---------|-------|
| Review                            | Review step | Review description and  | Step description  | HICS Issuer ID:  | 18637              | 30942   | 33674 |
| 11                                | 2           | If applicable, confirm that the compliance plan is completed and uploaded.  |   | Attestation  | Met                | Not Met | Met   |
| 12                                | 2           | a   | The submission of a compliance plan is optional, but if the issuer answered "yes" to the compliance plan attestation, check that compliance plan is uploaded and that the issuer saved the document with proper naming convention. Because this is optional, if the plan is missing you should still mark as met, but you may make a note if you would like to request that the issuer resubmit with the compliance plan. |  | Met                | Not Met | Met   |
| Program Attestation Validation 3  |             |   |   |  |                    |         |       |
| 14                                | 3           | Confirm that organizational chart attestation section response is completed and the organizational chart is uploaded. |   | Supporting document uploads  | Met                | Not Met | Met   |
| 15                                | 3           | a   | Confirm that organizational chart is included in application. If the organizational chart is not uploaded, mark as not met.   |  | Met                | Not Met | Met   |
| 16                                | 3           | b   | Compare company name with company name provided in application. If company names do not match, mark as not met.   |  | Met                | Not Met | Met   |
| 17                                |             |   |   | Based on the previous validation steps, the program attestation review requirement for this issuer is: | Met                | Not Met | Met   |

- After you have manually populated **Met** or **Not Met** for each issuer's plan in the Master Review Tool *Program Attestation* tab, open the Master Review Tool *Review Summary* tab to see the auto-populated results.

| Section/Standard                    | Function of Review  | Met | Met | Met |
|-------------------------------------|---|-----|-----|-----|

## IV: SHOP TYING REVIEW

1. Use the SHOP Tying Provision (45 CFR §156.200(g)), the list of issuers subject to the SHOP Tying Provision, and the Provider SHOP Tying Justifications to complete the SHOP Tying review (in the Master Review Tool SHOP Tying tab) with Met or Not Met accordingly.

### § 156.200 QHP issuer participation standards.

(g) *Certification standard specific to a Federally-facilitated Exchange.* A Federally-facilitated Exchange may certify a QHP in the individual market of a Federally-facilitated Exchange only if the QHP issuer meets one of the conditions below:

- (1) The QHP issuer also offers through a Federally-facilitated SHOP serving that State at least one small group market QHP at the silver level of coverage and one at the gold level of coverage as described in section 1302(d) of the Affordable Care Act;
- (2) The QHP issuer does not offer small group market products in that State, but another issuer in the same issuer group offers through a Federally-facilitated SHOP serving that State at least one small group market QHP at the silver level of coverage and one at the gold level of coverage; or
- (3) Neither the issuer nor any other issuer in the same issuer group has a share of the small group market, as determined by HHS, greater than 20 percent, based on the earned premiums submitted by all issuers in the State's small group market, under § 158.110 of this subchapter, on the reporting date immediately preceding the due date of the application for QHP certification.

Provider SHOP Tying Justification

2. Read the *SHOP Tying* Validation step descriptions carefully as subsequent *SHOP Tying* validation steps are conditional based on previous *SHOP Tying* validation steps' **Met** or **Not Met** compliance.

- Save the Master Review Tool after you have completed the *Shop Tying* review.

## V: ESSENTIAL HEALTH BENEFIT (EHB) REVIEW

The *Essential Health Benefit (EHB)* review confirms that the plan being reviewed complies with standards for the provision of EHB consistent with Federal rules. States may use form filings and/or the **Plans and Benefits Template to complete the EHB review.**

- For Validations 1-12, read the **Description** in row 6 and perform the 10 validation steps for all EHBs and all benefits that are used as an EHB substitution. Read the *EHB Review Validation Step Descriptions* in column D carefully as subsequent steps are conditional based on compliance.

The screenshot displays two Excel worksheets. The top worksheet, 'Master Review Tool\_V3\jkp.xlsm', contains a table titled 'Essential Health Benefits Review Process Steps'. This table has columns for 'Review', 'Review step', 'Review description and', and 'Step description'. It includes validation rules for annual dollar limitations, lifetime dollar limitations, and EHB coverage. The bottom worksheet shows a 'Benefit Information' table with columns for 'Benefits', 'EHB', 'State Mandate', 'Is this Benefit Covered?', 'Quantitative Limit on Service', 'Limit Quantity', 'Limit Unit', 'Minimum Stay', 'Exclusions', 'Explanation (text field)', and 'EHB Variance Reason'. A yellow callout box on the right contains the text: 'To complete EHB Review Validation 8a-8d, 9a-9c and 10a-10b, use the form filings or Plans and Benefits Templates data from the Benefits, Limit Unit, Exclusions, and Explanation.' Arrows point from this box to rows 8, 9, and 10 in the process steps table and to the 'Exclusions' and 'Explanation' columns in the benefit information table.

To complete EHB Review Validation 8a-8d, 9a-9c and 10a-10b, use the form filings or Plans and Benefits Templates data from the Benefits, Limit Unit, Exclusions, and Explanation.

| Essential Health Benefits Review Process Steps |             |   |   |   |                    |
|--|-------------|---|---|---|--------------------|
| Review   | Review step | Review description and procedure          | Step description  | Source  | Validation Results |
| EHB Review Validation 11                       |             |   |   |   |                    |
| 11   |             | Confirm that mental health parity exists. |   |   |                    |
| 11   | a           |   | If a benefit in <i>Benefits</i> is one of the following:<br>♦ "Mental/Behavioral Health Outpatient Services"<br>♦ "Mental/Behavioral Health Inpatient Services"<br>♦ "Substance Use Disorder Outpatient Services"<br>♦ "Substance Use Disorder Inpatient Services"<br>and is not in parity to a <i>Limit Quantity</i> respective to medical/surgical health benefits mark as not met. | <i>Benefits, Limit Quantity, Limit Unit</i>   |                    |
| 11   | b           |   | If a benefit in <i>Benefits</i> is one of the following:<br>♦ "Mental/Behavioral Health Outpatient Services"<br>♦ "Mental/Behavioral Health Inpatient Services"<br>♦ "Substance Use Disorder Outpatient Services"<br>♦ "Substance Use Disorder Inpatient Services"<br>and is not in parity to cost sharing respective to medical/surgical health benefits mark as not met.            | <i>Benefits, Copay—In Network (Tier 1), Copay—In Network (Tier 2), Copay—Out of Network, Coinsurance—In Network (Tier 1), Coinsurance—In Network (Tier 2), Coinsurance—Out of Network</i> |                    |

To complete *EHB Review Validation 11a*, use the form filings or Plans and Benefits Templates data from the *Benefits, Limit Quantity*, and *Limit Unit* for Copay and Coinsurance information.

| Benefit Information  |     |               |         | Is this Benefit Covered? | Quantitative Limit on Service | Limit Quantity | Limit Unit |
|--|-----|---------------|---------|--------------------------|-------------------------------|----------------|------------|

Open the Master Review Tool *Review Summary* tab to see the auto-populated review results.

- Save the Master Review Tool after you have completed the *EHB* review.

## VI: ESSENTIAL COMMUNITY PROVIDER (ECP) REVIEW

The ECP review process in the Master Review Tool ensures issuers have ECPs, where available, that meet the FFM minimum expectation percentage (recommended to be at least 10 percent of available ECPs) and the safe harbor standard percentage (recommended to be at least 20 percent of available ECPs).

1. Open the Qualified Health Plan Application State Review Tools folder and run the ECP Tool for all the issuers' plans you wish to evaluate. You must run the ECP Tool only one issuer at a time, so be sure to save each completed ECP Tool with a unique filename, e.g., by issuer ID. For more information on running the ECP Tool, see section II. ECP Tool in the [QHP Application State Review Tools User Guide: Loading the Data](#)

This user has run and saved the ECP Tool for three issuers: 18637, 30942, and 33674.

- If you decide to use the ECP stand-alone tool, review the validation steps in the Master Review Tool *ECP* tab to better understand the logic behind the ECP Tool or to see where you can submit justifications.

| Essential Community Providers Review Process Steps   |  |   |  |
|--|--|---|--|
| The ECP validation can be performed using a separate Excel tool, or manually through validation steps. |  |   |  |
| Using the drop down to the right, select how this ECP review will be performed: Through the ECP tool   |  |   |  |
| If using the ECP tool, proceed to row 14   |  |   |  |
| If using the manual review, proceed to row 27  |  |   |  |
| Steps if using the Stand-Alone ECP tool  |  |   |  |
| Review   | Review description and procedure   | Step description  | Tool Data Inputs   |
| Stand-Alone Tool ECP Validation 1  |  |   |  |
| 1  | Do the ECP review using the excel file "ECP Tool" from the zip folder to run the tool for each of the plans being evaluated. | Open the excel file and follow the directions in the workbook to run the tool for each of the plans being evaluated. Then using the tool's output, manually select whether each ECP requirement has been met for each plan. If both requirements are met, leave step 2 blank. If either requirement is not met, go to step 2. | Service Area template, ECP template Benefits Template (or import from the Review tool) |

Open the Master Review Tool *ECP* tab to see the ECP review description.

Use the *drop-down menu* in cell D4 to select how you will perform the ECP review: *Manually* or *Through ECP Tool*.

4. Open the ECP Tool *Output* tab to see the issuer's plans you wish to review.

The screenshot shows the 'Master Review Tool' Excel spreadsheet. The 'Essential Community Providers Review Process Steps' section includes instructions on how to perform ECP validation. A yellow callout box points to the 'Service Area template, ECP template, Plan & Benefits Template (or import from this Master Review tool)' text in the spreadsheet, stating: 'To complete ECP Review *Validations 1 and 2*, use Service Area template, ECP template, Plans and Benefits Template (or import from this Master Review tool).' Below this, a table lists validation steps. Step 1 involves opening the 'ECP Tool' and evaluating plans. Step 2 involves providing justification for ECP exclusion. A 'Validation Results' table is also visible, showing HIOS Issuer ID, Plan ID, Network ID, Service area ID, and Source.

The inset screenshot shows the 'Output' tab of the ECP Tool. It contains a table with the following columns: HIOS Plan ID (Standard Component), HIOS Issuer ID, Network ID, Service Area ID, Minimum Expectation Percentage (At least 10% of Available ECPs? (\*rounded)), and Safe Harbor Standard Percentage (At least 20% of Available ECPs? (\*rounded)). The 'Minimum Expectation Percentage' and 'Safe Harbor Standard Percentage' columns are circled in red. The table lists 13 rows of data, all showing 'Met' for both percentages. A red circle highlights the 'Output' tab name at the bottom of the spreadsheet.

| HIOS Plan ID (Standard Component) | HIOS Issuer ID | Network ID | Service Area ID | Minimum Expectation Percentage<br>At least 10% of Available ECPs? (*rounded) | Safe Harbor Standard Percentage<br>At least 20% of Available ECPs? (*rounded) |
|-----------------------------------|----------------|------------|-----------------|--|---|

| 18637VT0123460                    | 18637          | VTN001     | VTS001          | Met  | Met   |
| 18637VT0123461                    | 18637          | VTN001     | VTS001          | Met  | Met   |
| 18637VT0123462                    | 18637          | VTN002     | VTS002          | Met  | Met   |
| 18637VT0123463                    | 18637          | VTN001     | VTS002          | Met  | Met   |
| 18637VT0123464                    | 18637          | VTN001     | VTS001          | Met  | Met   |
| 18637VT0123465                    | 18637          | VTN002     | VTS001          | Met  | Met   |
| 18637VT0123466                    | 18637          | VTN001     | VTS002          | Met  | Met   |

Open the completed ECP Tool *Output* tab to see the issuer's plans you to wish to review.

- Using the data in the ECP Tool *Output* tab, go to the Master Review Tool *ECP* tab and use the drop-down menus in the *Validation Results* columns to indicate if an issuer's plan has met the minimum expectation percentage and the safe harbor standard percentage.

Master Review Tool\_V2.xlsx - Microsoft Excel

Essential Community Providers Review Process Steps

The ECP validation can be performed using a separate Excel tool, or manually through validation steps.  
Using the drop down to the right, select how this ECP review will be performed: Through the ECP tool  
If using the ECP tool, proceed to row 14  
If using the manual review, proceed to row 27

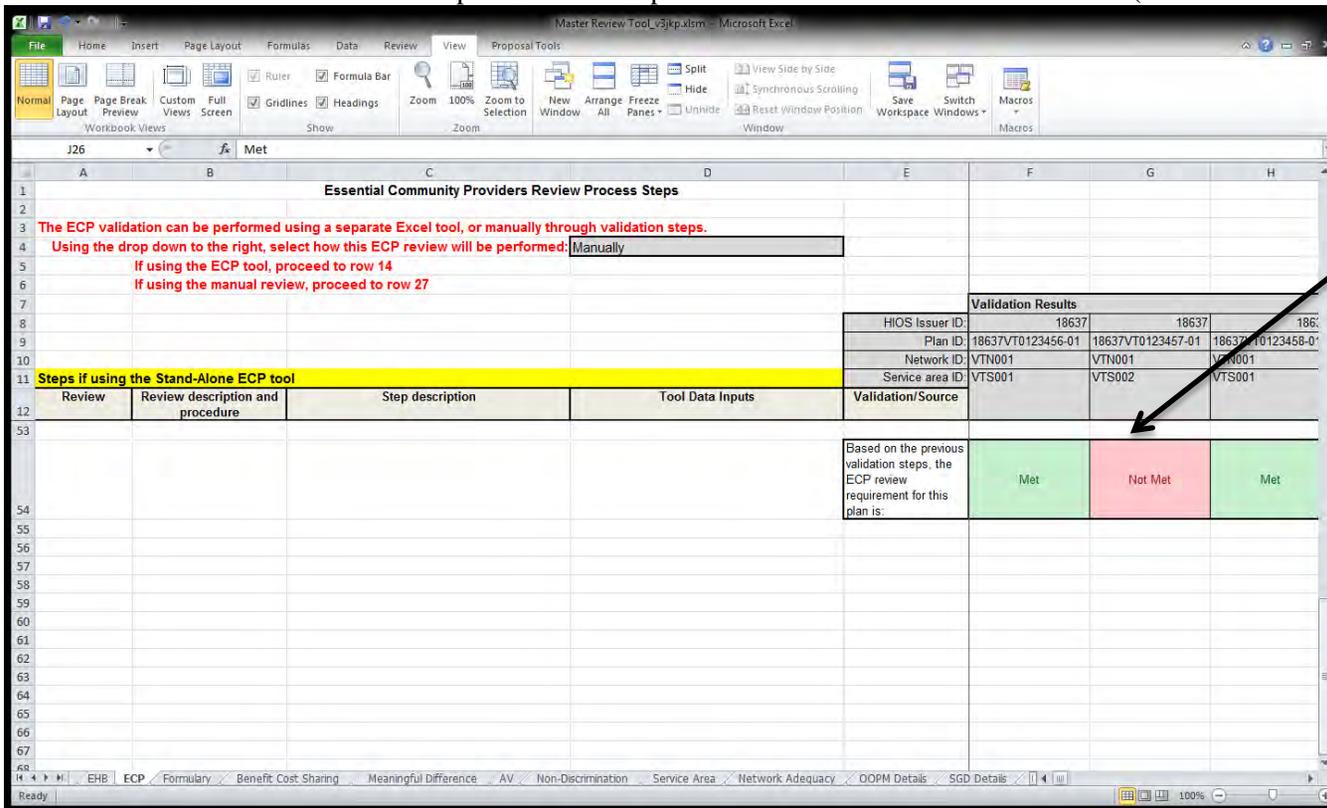

| Steps if using the Stand-Alone ECP tool |  |   |  | Validation Results        |                                   |                                   |
|---|--|---|--|---------------------------|-----------------------------------|-----------------------------------|
| Review                                  | Review description and procedure   | Step description  | Tool Data Inputs   | Validation/Source         | Standard Bronze Off Exchange Plan | Standard Silver Off Exchange Plan |
| Stand-Alone Tool ECP Validation 1       |  |   |  |                           |                                   |                                   |
| 1                                       | Do the ECP review using the excel file "ECP Tool" from the zip folder to run the tool for each of the plans being evaluated. | Open the excel file and follow the directions in the workbook to run the tool for each of the plans being evaluated. Then using the tool's output, manually select whether each ECP requirement has been met for each plan. If both requirements are met, leave step 2 blank. If either requirement is not met, go to step 2. | Service Area template, ECP template, Plan & Benefits Template (or import from this Master Review tool) | Minimum expectation met?  | Met                               | Not Met                           |
|   |  |   |  | Safe harbor standard met? | Met                               | Met                               |
| Stand-Alone Tool ECP Validation 2       |  |   |  |                           |                                   |                                   |
| 2                                       |  | If the standard is not met, verify that the issuer has provided a satisfactory justification for ECP exclusion.   | If a satisfactory justification is provided, mark as met. If not, mark as not met.                     | ECP Supporting Documents  |                                   | Not Met                           |

Use the *drop-down menus* to indicate **Met** or **Not Met** for each issuer's plan.

If the two ECP standards are **Met**, skip step 2.

If either of the ECP standards is **Not Met**, proceed to step 2, and follow the step description in cell C17 for justification.

5. The worksheet determines overall compliance for each provider based on the *Validation Results (Met or Not Met)* for the *ECP* requirements.

The worksheet determines overall compliance for each provider based on the *Validation Results (Met or Not Met)*.

6. Once you have manually populated **Met** or **Not Met** for each issuer's plan in the Master Review Tool *ECP* tab, open the Master Review Tool *Review Summary* to see the auto-populated results.

Open the Master Review Tool *Review Summary* tab to see the auto-populated review results.

7. Save the Master Review Tool after you have completed the ECP review.

## VII: FORMULARY (DRUG) REVIEW

The Formulary review process in the Master Review Tool ensures compliance with EHB and checks for discrimination by counting drugs in each USP category and class.

1. Open the Qualified Health Plan Application State Review Tools folder and run the Drug Tool for the drug lists you wish to evaluate. You must copy/paste the information from each issuer's Category Class Count Report one at a time, so be sure to save the Drug Tool after each evaluation with a unique filename, e.g., by issuer ID. For more information on running the Drug Tool, see section VI. Formulary (Drug) Tool in the [OHP Application State Review Tools User Guide: Loading the Data](#).

This user has run and saved the Drug Tool for three issuers' drug lists (18637, 30942, and 33674).

2. Open the Drug Tool *Output* tab for the issuer's drug list you wish to evaluate.

| Total Number of Classes with the Count Standard Not Met |                                      | 18              |                 |                     |
|---|--------------------------------------|-----------------|-----------------|---------------------|
| Category  | Class                                | Drug List Count | Benchmark Count | Count Standard Met? |
| Analgesics  | Nonsteroidal Anti-inflammatory Drugs | 19              | 20              | No                  |
| Analgesics  | Opioid Analgesics, Long-acting       | 11              | 11              | Yes                 |
| Analgesics  | Opioid Analgesics, Short-acting      | 11              | 11              | Yes                 |
| Anesthetics   | Local Anesthetics                    | 3               | 3               | Yes                 |

| Anti-Addiction/Substance Abuse Treatment Agents         | Opioid Antagonists                   | 3               | 3               | Yes                 |
| Anti-Addiction/Substance Abuse Treatment Agents         | Smoking Cessation Agents             | 3               | 3               | Yes                 |
| Antibacterials  | Aminoglycosides                      | 9               | 9               | Yes                 |
| Antibacterials  | Antibacterials, Other                | 19              | 20              | No                  |
| Antibacterials  | Beta-lactam, Cephalosporins          | 18              | 18              | Yes                 |
| Antibacterials  | Beta-lactam, Other                   | 5               | 5               | Yes                 |
| Antibacterials  | Beta-lactam, Penicillins             | 12              | 12              | Yes                 |
| Antibacterials  | Macrolides                           | 5               | 5               | Yes                 |
| Antibacterials  | Quinolones                           | 7               | 8               | No                  |

Open the completed Drug Tool *Output* tab to see the issuer's drug list you wish to review.

3. Using the data in the Drug Tool *Output* tab, go to the Master Review Tool *Formulary* tab, and use the drop-down menus to indicate if an issuer's drug list has met the formulary requirement.

| Review #   | Review step | Review description and procedure  | Step description  | Tool Data Inputs  |                    |               |
|--|-------------|---|---|---|--------------------|---------------|
| <b>Formulary Review Process Steps</b>  |             |   |   |   |                    |               |
| Each column has already been populated with the issuer ID and formulary ID.  |             |   |   |   |                    |               |
| For each issuer and formulary, enter the associated drug list ID into row 7. |             |   |   |   |                    |               |
| Perform the following review steps for each drug list.                       |             |   |   |   |                    |               |
|  |             |   |   | HIOS Issuer ID, Formulary ID:   | 33674, VTF001      | 33674, VTF002 |
|  |             |   |   | Drug list ID:   |                    |               |
| <b>Validation 1</b>  |             |   |   |   |                    |               |
| 1  |             | This review checks the drug count for each drug category and class against the state benchmark. | Do the Formulary review using the excel file "Drug Tool" file within the "Drug Tool" folder from the zip folder to run the tool for each of the Drug Lists being evaluated.   | Open the excel file and follow the directions in the workbook to perform your formulary evaluation in HIOS and then run the tool for each of the drug lists being evaluated. Then, using the tool's output, manually select whether the formulary requirement has been met. If there are any flagged category and classes, mark as not met and go to step 2. If all categories and classes are above the benchmark, mark as met and leave step 2 blank. | Formulary Template | Not Met / Met |
| <b>Validation 2</b>  |             |   |   |   |                    |               |
| 2  |             | Examine justification documents for categories and classes requiring further review.            |   |   |                    | Not Met / Met |
| 2  | a           |   | For each flagged category and class in each drug list needing further review, consider the following:<br>If the issuer submitted a formulary justification template that includes a satisfactory reason for having an inadequate number of drugs in the given category and class, consider the category and class to have a valid justification and repeat this review step for the next flagged category and class. If all justifications are satisfactory, mark as met.<br>Recommended satisfactory justifications include: drugs in this category or class have been discontinued by the manufacturer, drugs in this category or class have been deemed unsafe by the FDA or removed from the market by the manufacturer due to safety concerns, drugs in this category and class have a Drug Efficacy Study Implementation (DESI) classification, or drugs in this category or class have become available as generics during or after December 2012. | Justification documents   | Not Met            |               |
| 2  | b           |   | If the issuer provided no valid justification for a flagged category and class in a drug list needing further review, mark as not met.  |   | Not Met            |               |
|  |             |   |   | Based on the previous validation steps, the formulary review requirement for this plan is:  | Not Met            | Met           |

Use the *drop-down menus* to indicate **Met** or **Not Met** for each issuer's drug list.

If an issuer's drug list categories and classes are above the benchmark, mark **Met** and skip the remaining steps.

If an issuer's drug list has any flagged Category and Classes, mark **Not Met**, proceed to step 2, and follow the step descriptions in cells D13-15 for justifications.

4. The worksheet determines overall compliance for each provider based on the *Validation Results* (**Met** or **Not Met**) for the *Formulary* requirements.

| Formulary Review Process Steps  |             |                                  |  |                  |
|---|-------------|----------------------------------|--|------------------|
| Each column has already been populated with the issuer ID and formulary ID.<br>For each issuer and formulary, enter the associated drug list ID into row 7.<br>Perform the following review steps for each drug list. |             |                                  |  |                  |
|   |             | HIGS Issuer ID                   | Formulary ID   | Drug list ID     |
|   |             |                                  |  | 18637_VTF001     |
|   |             |                                  |  | 18637_VTF002     |
|   |             |                                  |  | 18637_VTF003     |
|   |             |                                  |  | 18637_VTF004     |
| Review  | Review step | Review description and procedure | Step description   | Tool Data Inputs |
|   |             |                                  | Recommended satisfactory justifications include: drugs in this category or class have been discontinued by the manufacturer, drugs in this category or class have been deemed unsafe by the FDA or removed from the market by the manufacturer due to safety concerns, drugs in this category and class have a Drug Efficacy Study Implementation (DESI) classification, or drugs in this category or class have become available as generics during or after December 2012. |                  |
|   | 2           | b                                | If the issuer provided no valid justification for a flagged category and class in a drug list needing further review, mark as not met.   |                  |
| Based on the previous validation steps, the formulary review requirement for this plan is:  |             |                                  |  |                  |
|   |             |                                  |  | Met              |
|   |             |                                  |  | Not Met          |
|   |             |                                  |  | Met              |
|   |             |                                  |  | Met              |

The worksheet determines overall compliance for each provider based on the *Validation Results* (**Met** or **Not Met**).

- After you have manually populated **Met** or **Not Met** for each issuer's drug list in the Master Review Tool *Formulary* tab, open the Master Review Tool *Review Summary* tab to see the auto-populated results.

| Master Review Tool    |   | Validation Results |         |         |         |
|-----------------------|---|--------------------|---------|---------|---------|
| Section/Standard      | Function of Review  | 18637              | 18637   | 18637   | 18637   |
| Formulary             | Ensure compliance with EHBs and check for discrimination by counting drugs in each therapeutic category and class.  | Met                | Met     | Met     | Met     |
| Benefit Cost Sharing  | Check only in-network out-of-pocket maximum and small group deductible costs for individual and family EHB coverage against the IRS annual dollar limit, ensure the cost sharing variations and catastrophic plans meet all requirements. | Met                | Not Met | Met     | Not Met |
| Meaningful Difference | Identify if an issuer submits four or more QHPs of the same plan type and metal level in a county and review further for network and deductible differences.  | Met                | Not Met | Met     | Met     |
| Actuarial Value       | Ensure actuarial value determination in these plans is similar to established metal levels.   | Met                | Not Met | Not Met | Met     |
| Non-Discrimination    | Perform an outlier analysis on selected benefits and drug cost-sharing.   | Met                | Not Met | Met     | Not Met |
| Service Area          | Confirm that issuers provide full counties or have a justifiable reason for partial counties.   | Met                | Met     | Met     | Not Met |
| Network Adequacy      | Confirm that Tier 3 network adequacy issuers submitted a complete access plan.  | Met                | Met     | Met     | Met     |

Open the Master Review Tool *Review Summary* tab to see the auto-populated review results.

- Save the Master Review Tool after you have completed the Formulary review.

## VIII: COST SHARING REVIEW

1. Open the Qualified Health Plan Application State Review Tools folder and run the Cost Sharing Tool for all the plans you wish to evaluate. For more information on running the Cost Sharing Tool, see section V. Cost Sharing Tool in the [OHP Application State Review Tools User Guide: Loading the Data](#).
2. If you decide to use the Benefit Cost Sharing stand-alone tool, review the validation steps in the Master Review Tool *Benefit Cost Sharing* tab to better understand the logic behind the Cost Sharing Tool or to see where you can submit justifications.
3. Use the *drop-down menu* in cell D4 to select how you will perform the review.

|   | A   | B | C | D                                     | E |
|---|---|---|---|---------------------------------------|---|
| 1 | Benefit Cost Sharing Review Process Steps   |   |   |                                       |   |
| 2 |   |   |   |                                       |   |
| 3 | The benefit cost sharing validation for the Out of Pocket Maximum, Small Group Deductible, Cost Sharing Reduction, and Catastrophic plans |   |   |                                       |   |
| 4 | Select how this benefit cost sharing review will be performed:  |   |   | Through the benefit cost sharing tool |   |
| 5 | If using the benefit cost sharing tool, proceed to row  |   |   | Through the benefit cost sharing tool |   |
| 6 | If using the manual review, proceed to row 29. <b>**Be sure to complete the review steps for ALL FOUR reviews, as applicable.</b>         |   |   | Manually                              |   |

Open the Master Review Tool *Benefit Cost Sharing* tab to see the review description.

Use the *drop-down menu* in cell D4 to select how you will perform the review

4. Open the Cost Sharing Tool *Summary Plan Level* tab to see the issuer's plans you wish to review.

| HIOS Plan ID (Standard Component) | Market Coverage | Level of Coverage | Out-Of-Pocket-Max | Small Group Deductible | Cost Sharing Reduction | Catastrophic   |
|-----------------------------------|-----------------|-------------------|-------------------|------------------------|------------------------|----------------|
| 11 18637VT0123465                 | Individual      | Gold              | Incomplete        | Not Applicable         | Not Met                | Not Applicable |

| 29 18637VT9876549                 | Individual      | Gold              | Incomplete        | Not Applicable         | Not Met                | Not Applicable |
| 30 18637VT9876550                 | Individual      | Bronze            | Incomplete        | Not Applicable         | Not Met                | Not Applicable |
| 31 18637VT9876551                 | Individual      | Silver            | Incomplete        | Not Applicable         | Not Met                | Not Applicable |
| 32 18637VT9876552                 | Individual      | Platinum          | Incomplete        | Not Applicable         | Not Met                | Not Applicable |
| 33 18637VT9876553                 | Individual      | Gold              | Incomplete        | Not Applicable         | Not Met                | Not Applicable |
| 34 18637VT9876554                 | Individual      | Silver            | Incomplete        | Not Applicable         | Not Met                | Not Applicable |
| 35 18637VT9876555                 | Individual      | Platinum          | Incomplete        | Not Applicable         | Not Met                | Not Applicable |

Open the completed Cost Sharing Tool *Summary Plan Level* tab to see the issuer's plans you wish to review.

5. Using the data in the Cost Sharing Tool *Summary Plan Level* tab, go to the Master Review Tool *Benefit Cost Sharing* tab and use the drop-down menus in the *Validation Results* columns to indicate if an issuer's plan has met the benefit cost-sharing requirements. Please note this does not include the process steps/review for those plans intending to only offer coverage to individuals (self-only).
  - a. Leave a validation cell blank if any review was not applicable to a plan.
  - b. If the OOPM review is **Not Met**, go to step two.
  - c. If the SGD review is **Not Met** AND the Cost Sharing Tool *Summary Plan Level* tab indicated that a justification check was necessary, go to step three. Otherwise, you can skip all other validation steps.

| Benefit Cost Sharing Review Process Steps                               |             |   |   | Validation Results            |         |
|---|-------------|---|---|-------------------------------|---------|
| Review  | Review step | Review description and procedure  | Step description  | Validation Reviews            |         |
| Benefit Cost Sharing Stand-Alone Tool Validation 1                      |             |   |   |                               |         |
| 1   |             | Do the benefit cost sharing review using the excel file "Benefit Cost Sharing Tool" from the zip folder to run the tool for all of the plans being evaluated. | Open the excel file and follow the directions in the workbook to run the tool for all of the plans. Then, using the tool's output, manually select whether each benefit cost sharing requirement has been met. If any of the reviews are Not Applicable to the plan, leave it blank. If the OOPM review is not met, go to step 2. If the SGD review is not met AND the tool indicated that a Justification Check was necessary, go to step 3. Otherwise, leave remaining steps blank. | Out of Pocket Maximum Review  | Met     |
|   |             |   |   | Small Group Deductible Review | Met     |
|   |             |   |   | Cost Sharing Reduction        | Met     |
|   |             |   |   | Catastrophic                  | Met     |
| Benefit Cost Sharing Stand-Alone Tool Validation 2 [OOPM Justification] |             |   |   |                               |         |
| 2   |             | If the Out of Pocket Maximum review was not met, check for sufficient justifications  |   |                               |         |
| 2   | a           |   | If the OOPM is above the threshold and there is no justification submitted, mark as not met.  |                               |         |
| 2   | b           |   | If an appropriate justification is submitted, the plan has passed the OOPM review. (Appropriate justifications can include verification that a plan has nested benefits or multiple administrators in the small group market). Mark as met. If the justification is not sufficient, mark as not met.  |                               | Not Met |
| Benefit Cost Sharing Stand-Alone Tool Validation 3 [SGD Justification]  |             |   |   |                               |         |
| 4   |             | If Small Group Deductible review was not met and the review tool indicated that a justification check was necessary, check for sufficient justifications.     |   |                               |         |
| 4   | a           |   | If there is no justification submitted, mark as not met.  |                               |         |
| 4   | b           |   | If a justification from a certified actuary is submitted, the plan has passed the small group deductible Cost Sharing review. Mark as met.  |                               | Met     |

Use the *drop-down menus* to indicate **Met** or **Not Met** for each cost-sharing requirement.

If the requirement is **Met**, you can skip all other validation steps.

If a review was not applicable to a plan, leave the cell blank.

If a requirement is **Not Met**, follow the validation step descriptions in cells D18-19 for OOPM justification and cells D22-23 for SGD justifications.

7. The worksheet determines overall compliance for each provider based on the *Validation Results (Met or Not Met)* for the *Cost Sharing* requirements.

| Benefit Cost Sharing Review Process Steps |             |                                  |   | Validation Results  |                   |                   |
|---|-------------|----------------------------------|---|---|-------------------|-------------------|

Open the Master Review Tool *Review Summary* tab to see the auto-populated review results.

7. Save the Master Review Tool after you have completed the *Benefit Cost Sharing* review.

## IX: MEANINGFUL DIFFERENCE REVIEW

The *Meaningful Difference* review process in the Master Review Tool reviews an issuer's QHPs of the same plan type and metal level in a county for substantial differences.

1. Open the Qualified Health Plan Application State Review Tools folder and run the Meaningful Difference Tool for all the plans you wish to evaluate. For more information on running the Meaningful Difference Tool, see section III. Meaningful Difference Tool in the [QHP Application State Review Tools User Guide: Loading the Data](#).
2. If you decide to use the Meaningful Difference stand-alone tool, review the validation steps in the Master Review Tool *Meaningful Difference* tab to better understand the logic behind the Meaningful Difference Tool or to see where you can submit justifications.
3. Use the *drop-down menu* in cell D4 to select how you will perform the review.

|   | A  | B | C | D                                      |
|---|--|---|---|--|
| 1 | <b>Meaningful Difference Review Process Steps</b>  |   |   |  |
| 2 |  |   |   |  |
| 3 | The meaningful difference validation can be performed using a separate Excel tool, or manually through validation steps. |   |   |  |
| 4 | Select how this formulary review will be performed:  |   |   | Through the meaningful difference tool |
| 5 | If using the meaningful difference tool, proceed to row 13.  |   |   | Through the meaningful difference tool |
| 6 | If using the manual review, proceed to row 30.   |   |   | Manually                               |
| 7 |  |   |   |  |

Open the Master Review Tool *Meaningful Difference* tab to see the review description.

Use the *drop-down menu* in cell D4 to select how you will perform the review.

4. Open the Meaningful Difference Tool *Summary* tab to see the issuer's plans you wish to review.

| <b>Meaningful Difference Review Process Steps</b>  |             |   |  |   |     |                |
| The meaningful difference validation can be performed using a separate Excel tool, or manually through validation steps. |             |   |  |   |     |                |
| Select how this formulary review will be performed: Through the meaningful difference tool                               |             |   |  |   |     |                |
| If using the meaningful difference tool, proceed to row 13.  |             |   |  |   |     |                |
| If using the manual review, proceed to row 30.   |             |   |  |   |     |                |
| <b>Steps if using the stand-alone Meaningful Difference Tool</b>   |             |   |  |   |     |                |
| <b>Meaningful Difference Review Stand-Alone Tool Validation Step 1</b>   |             |   |  |   |     |                |
| 1  |             | Do the meaningful difference review using the excel file "Meaningful Difference Tool" from the zip folder to run the tool for all of the plans being evaluated.                 | Open the excel file and follow the directions in the workbook to run the tool for all of the plans. Then, using the tool's output, manually select whether the meaningful difference requirement has been met. If it was met, mark met and leave the other steps blank. If it was not met, go to step 2.   | Plan & Benefits template (data import available from this tool)         | Met | Not Met        |
| <b>Meaningful Difference Review Stand-Alone Tool Validation Step 2</b>   |             |   |  |   |     |                |
| 2  |             | For plans that have not passed meaningful difference, determine whether there are differences in covered EHB benefits. (Note, this step is not covered by the stand-alone tool) |  |   |     | Met<br>Not Met |
| 2  | a           |   | Check to see whether any plans in the same cluster (meaning plans that are not different different from each other) used substitution for any of the EHBs. Every plan with a unique set of EHB substitutions is meaningfully different. Plans with the exact same set of EHB substitutions in the same cluster are not meaningfully different. Remaining plans are not meaningfully different. Mark met if the plan proves to be meaningfully different and leave the remaining step blank. Mark not met if the plan is not meaningfully different and go to step 3. | HICS Issuer ID, HICS Plan ID, Is this Benefit Covered? All EHB Benefits |     | Not Met        |
| <b>Meaningful Difference Review Stand-Alone Tool Validation Step 3</b>   |             |   |  |   |     |                |
| 3  |             | For any plans that are not meaningfully different, check for justification.   |  | Justification   |     | Not Met        |
| 3  | a           |   | Check to see whether justification was submitted if any of the plans were not meaningfully different. If all plans are meaningfully different, leave this step blank.  |   |     | Not Met        |
| 3  | b           |   | If justification was not submitted or is insufficient, the plans has a meaningful difference issues. Mark as not met. If the justification is sufficient, mark as met.   |   |     | Not Met        |

Use the *drop-down menus* to indicate **Met** or **Not Met** for each requirement.

If meaningful difference is **Met**, you can skip validation steps 2 and 3.

| 14 | 1  |                    | Do the meaningful difference review using the excel file "Meaningful Difference Tool" from the zip folder to run the tool for all of the plans being evaluated.                  | Open the excel file and follow the directions in the workbook to run the tool for all of the plans. Then, using the tool's output, manually select whether the meaningful difference requirement has been met. If it was met, mark met and leave the other steps blank. If it was not met, go to step 2.   | Plan & Benefits template (data import available from this tool)         | Met | Not Met |
| 15 | Meaningful Difference Review Stand-Alone Tool Validation Step 2  |                    |  |  |   |     |         |
| 16 | 2  |                    | For plans that have not passed meaningful difference, determine whether there are differences in covered EHB benefits. (Note, this step is not covered by the stand-alone tool.) |  |   |     | Not Met |
| 17 | 2  | a                  |  | Check to see whether any plans in the same cluster (meaning plans that are not different from each other) used substitution for any of the EHBs. Every plan with a unique set of EHB substitutions is meaningfully different. Plans with the exact same set of EHB substitutions in the same cluster are not meaningfully different. Remaining plans are not meaningfully different. Mark met if the plan proves to be meaningfully different and leave the remaining step blank. Mark not met if the plan is not meaningfully different and go to step 3. | HIOS Issuer ID, HIOS Plan ID, Is this Benefit Covered? All EHB Benefits |     | Not Met |
| 18 | Meaningful Difference Review Stand-Alone Tool Validation Step 3  |                    |  |  |   |     |         |
| 19 | 3  |                    | For any plans that are not meaningfully different, check for justification.  |  | Justification   |     | Not Met |
| 20 | 3  | a                  |  | Check to see whether justification was submitted if any of the plans were not meaningfully different. If all plans are meaningfully different, leave this step blank.  |   |     | Not Met |
| 21 | 3  | b                  |  | If justification was not submitted or is insufficient, the plans has a meaningful difference issues. Mark as not met. If the justification is sufficient, mark as met.   |   |     | Not Met |

If meaningful difference is **Not Met**, proceed to validation step 2, and follow the validation step descriptions in cell D17 for EHB benefits difference (see below).

If applicable, proceed to step 3, and follow the validation step descriptions in cells D20-21 for meaningful difference justification.

6. Using the Benefits template, check to see whether any plan in the same cluster, (a cluster being a group of plans that are not different from each other), used a substitution for any of the EHBs.
  - a. Every plan with a unique set of EHB substitutions is meaningfully different.
  - b. Plans with the exact same set of EHB substitutions in the same cluster are not meaningfully different.
  - c. Remaining plans are not meaningfully different.

| Benefits   | EHB | State Mandate | Is this Benefit Covered? | Quantitative Limit on Service | Limit Quantity | Limit Unit        |
|--|-----|---------------|--------------------------|-------------------------------|----------------|-------------------|
| Primary Care Visit to Treat an Injury or Illness             | Yes |               | Covered                  |                               |                |                   |
| Specialist Visit   | Yes |               | Covered                  | Yes                           | 2              | visit(s) per Year |
| Other Practitioner Office Visit (Nurse, Physician Assistant) | Yes |               | Covered                  |                               |                |                   |
| Outpatient Facility Fee (e.g., Ambulatory Surgery Center)    | Yes | Yes           | Covered                  |                               |                |                   |
| Outpatient Surgery Physician/Surgical Services               | Yes |               | Covered                  |                               |                |                   |
| Hospice Services   | Yes |               | Covered                  |                               |                |                   |
| Non-Emergency Care When Traveling Outside the U.S.           | Yes |               | Covered                  |                               |                |                   |
| Routine Dental Services (Adult)                              |     |               |                          |                               |                |                   |

Using the Plans and Benefits template data for *EHB* and *Is this Benefit Covered?*, check to see whether any plan in the same cluster, (a cluster being a group of plans that are not different from each other), used a substitution for any of the EHBs.

7. Mark **Met** if the plan proves to be meaningfully different and leave the remaining blank. Mark **Not Met** if the plan is not meaningfully different and proceed to step 3.

# X: ACTUARIAL VALUE (AV) REVIEW

The *Actuarial Value (AV)* review verifies that QHPs meet applicable AV standards, consistent with Federal rulemaking.

## 1. Use the Unified Rate Review and Plans and Benefits Templates to complete the AV review.

Read the *Step descriptions* in column D carefully since steps may entail multiple plans under each provider.

To complete *Validation 1*, compare the Plans and Benefits templates data from *Level of Coverage Metal Level* to the AV Metal Value in the URR Template.

| Actuarial Value Review Process Steps |             |   |   | Validation Results  |     |         |
|--------------------------------------|-------------|---|---|---|-----|---------|
| Review                               | Review step | Review description and procedure  | Step description  | Source  |     |         |
| Validation 1                         |             |   |   |   |     |         |
| 1                                    |             | Compare Metal Levels from the Unified Rate Review (URR) template and Plans & Benefits template. | For all plans, compare the <i>Metal Level</i> from the Plans & Benefits template to the <i>AV Metal Value</i> from the URR template. The AV values on the URR template and Plans & Benefits template do not have to be identical, but do have to represent the same level of coverage (i.e., metal level) |   |     |         |
| 1                                    | a           |   | If <i>Metal Level</i> equals "Platinum," verify that the <i>AV Metal Value</i> is between 88% and 92%. If standard is not met, mark as not met.   | <i>Metal Level</i> (from Plans & Benefits template), <i>AV Metal Value</i> (from the URR) |     |         |
| 1                                    | b           |   | If <i>Metal Level</i> equals "Gold," verify that the <i>AV Metal Value</i> is between 78% and 82%. If standard is not met, mark as not met.   | <i>Metal Level</i> (from Plans & Benefits template), <i>AV Metal Value</i> (from the URR) | Met | Met     |
| 1                                    | c           |   | If <i>Metal Level</i> equals "Silver," verify that <i>AV Metal Value</i> is between 68% and 72%. If standard is not met, mark as not met.   | <i>Metal Level</i> (from Plans & Benefits template), <i>AV Metal Value</i> (from the URR) |     | Not Met |
| 1                                    | d           |   | If <i>Metal Level</i> equals "Bronze," verify that the <i>AV Metal Value</i> is between 58% and 62%. If standard is not met, mark as not met.   | <i>Metal Level</i> (from Plans & Benefits template), <i>AV Metal Value</i> (from the URR) |     |         |
| 1                                    | e           |   | If <i>Metal Level</i> equals "Catastrophic," no AV review is necessary. Mark as met and leave remaining steps blank.  | <i>Metal Level</i> (from Plans & Benefits template), <i>AV Metal Value</i> (from the URR) |     |         |

Open the Master Review Tool *Review Summary* tab to see the auto-populated review results.

- Save the Master Review Tool after you have completed the AV review.

## XI: NON-DISCRIMINATION BENEFIT REVIEW

The *Non-Discrimination* review conducts plan-level analyses targeting areas where discrimination would most likely occur, consistent with applicable regulations, to ensure that issuers do not employ benefit designs that discourage enrollment of individuals with significant health needs.

1. Open the Qualified Health Plan Application State Review Tools folder and run the Non-Discrimination Tool for all the plans you wish to evaluate. For more information on running the Non-Discrimination Tool, see section IV. Non-Discrimination Benefit Review Tool in the [QHP Application State Review Tools User Guide: Loading the Data](#).
2. If you decide to use the Non-Discrimination Benefit Review stand-alone tool, review the validation steps in the Master Review Tool *Non-Discrimination* tab to better understand the logic behind the Non-Discrimination Benefit Review Tool or to see where you can submit justifications.

| 1 | Discriminatory Quantitative Limits, Language, and Cost Sharing Review Process Steps                               |   |   |                                 |
| 2 |   |   |   |                                 |
| 3 | The discrimination validation can be performed using a separate Excel tool, or manually through validation steps. |   |   |                                 |
| 4 | Select how this non-discrimination review will be performed:  |   |   | Through the discrimination tool |
| 5 | If using the discrimination tool, proceed to row 14   |   |   | Through the discrimination tool |
| 6 | If using the manual review, proceed to row 28   |   |   | Manually                        |

Open the Master Review Tool *Non-Discrimination* tab to see the review description.

Use the *drop-down menu* in cell D4 to select how you will perform the review.

3. Open the Non-Discrimination Benefit Review Tool *Output* tab to see the issuer's plans you wish to review.

| 30942V0123456                     | 30942          | HMO       | Bronze            | Met        | Okay                         | Okay                        | Okay                               | Okay                                | Okay                               | Okay             | Okay                     | Okay                     | Okay         |    |

Open the Non-Discrimination Benefit Review Tool *Output* tab to see the issuer's plans you wish to evaluate.

4. Using the data in the Non-Discrimination Benefit Review Tool *Output* tab, go to the Master Review Tool *Non-Discrimination* tab and use the drop-down menus in the *Validation Results* columns to indicate if an issuer's plan has met the discrimination requirement.

| Review  | Review step | Review description and procedure  | Step description   | Tool Data Inputs  | Validation Results |
|---|-------------|---|--|---|--------------------|
| Discriminatory Quantitative Limits, Language, and Cost Sharing Review Process Steps                               |             |   |  |   |                    |
| The discrimination validation can be performed using a separate Excel tool, or manually through validation steps. |             |   |  |   |                    |
| Select how this non-discrimination review will be performed: Through the discrimination tool                      |             |   |  |   |                    |
| If using the discrimination tool, proceed to row 14   |             |   |  |   |                    |
| If using the manual review, proceed to row 28   |             |   |  |   |                    |
| Steps if using the stand-alone Meaningful Difference Tool   |             |   |  |   |                    |
| Non-Discrimination Stand-Alone Tool Review 1  |             |   |  |   |                    |
| 1   |             | Do the discrimination review using the excel file "Non-Discrimination Benefit Review Tool" from the zip folder to run the tool for all of the plans being evaluated for your state. | Open the excel file and follow the directions in the workbook to run the tool for all of the plans. Then, using the tool's output, manually select whether the discrimination requirement has been met. If the requirement is met, mark as met and go to step 3. If the plan is not met, mark as not met and go to step 3. | Plan & Benefits template (data import available from this tool) | Met / Not Met      |
| Non-Discrimination Stand-Alone Tool Review 2  |             |   |  |   |                    |
| 6   |             | If the tool review result was not met, check for accompanying justification.  | Check to see if there is accompanying justification. If there is no justification or the justification is insufficient, the plan is discriminatory for that benefit limit. Mark the plan as not met. If the justification is sufficient, mark as met. Go to step 3.  |   | Not Met            |
| 6   | a           |   |  |   | Not Met            |
| Non-Discrimination Stand-Alone Tool Review 3  |             |   |  |   |                    |
| 3   |             | Review Exclusions and Explanation (text field) for discriminatory language.   | Review text for the following areas:<br>• Discriminatory language related to limits or exclusions<br>• Obvious policy violations<br>• Unlawful exclusions or limits.   | Specified Benefits:<br>Exclusions, Explanation (text field)     | Met / Not Met      |
| 3   | a           |   |  |   | Met / Not Met      |
| 3   | b           |   | If there is no discriminatory language, mark as met. If there any discriminatory language was identified, check to see whether there is accompanying justification and go to step 2c.  |   | Met / Not Met      |
| 3   | c           |   | If there is no accompanying justification or the justification is insufficient, the plan is discriminatory for that benefit. Mark as not met.  |   | Met / Not Met      |

Use the *drop-down menus* to indicate **Met** or **Not Met** for each requirement.

If discrimination is **Met**, go to step 3, (Non-Discrimination Stand-Along Tool Review 3), and follow the step descriptions in cells D17-22.

If discrimination is **Not Met**, proceed to step 2, (Non-Discrimination Stand-Along Tool Review 2), and follow the step descriptions in cell D14 for justification.

5. The worksheet determines overall compliance for each provider based on the *Validation Results (Met or Not Met)* for the *Non-Discrimination* requirements.

| Review | Review step | Review description and procedure | Step description   | Tool Data Inputs  | Validation Results |
|--------|-------------|----------------------------------|--|---|--------------------|
| 102    |             |                                  | Review text for the following areas:   |   |                    |
| 103    |             |                                  | • Discriminatory language related to cost sharing  |   |                    |
| 104    | a           |                                  | • Unlawful exclusions or limits related to cost sharing  | Specified Benefits:<br>Exclusions, Explanation:<br>(text field) |                    |
| 105    |             |                                  | Note: EHB text review should focus on language related to limits or other restrictions. QHP text review should focus on language related to cost sharing |   |                    |
| 106    | b           |                                  | If any discriminatory language was identified, check to see whether there is accompanying justification  |   |                    |
| 107    | c           |                                  | If there is no accompanying justification or the justification is insufficient, mark as not met  |   |                    |
| 108    |             |                                  | Based on the previous validation steps, the discrimination review requirement for this plan is:  |   | Met Not Met Met    |

The worksheet determines overall compliance for each provider based on the *Validation Results (Met or Not Met)*.

6. After you have manually populated **Met** or **Not Met** for each issuer's plan in the Master Review Tool *Non-Discrimination* tab, open the Master Review Tool *Review Summary* tab to see the auto-populated results.

| Master Review Tool                 |  | Validation Results |         |         |         |
|------------------------------------|--|--------------------|---------|---------|---------|
| Section/Standard                   | Function of Review   | 18637              | 18637   | 18637   | 18637   |
| <a href="#">Non-Discrimination</a> | Perform an outlier analysis on selected benefits and drug cost-sharing                       | Met                | Not Met | Met     | Not Met |
| <a href="#">Service Area</a>       | Confirm that issuers include full counties or have a justifiable reason for partial counties |                    | Met     |         | Not Met |
| <a href="#">Network Adequacy</a>   | Confirm that Tier 3 network adequacy issuers submitted a complete access plan.               |                    | Met     |         | Met     |
| <b>OVERALL PLAN VALIDATION</b>     |  | Met                | Not Met | Not Met | Not Met |

Open the Master Review Tool *Review Summary* tab to see the auto-populated review results.

7. Save the Master Review Tool after you have completed the *Non-Discrimination* review.

## XII: SERVICE AREA REVIEW

The *Service Area* review verifies that each service area meets geographic standards set forth in the Exchange Final Rule and is non-discriminatory (e.g., service areas of at least an entire county).

### 1. Use the Service Area Templates to complete the *Service Area* review.

|    | A                                 | B           | C   | D   | E   | F                  |
|----|-----------------------------------|-------------|---|---|---|--------------------|
| 1  | Service Area Review Process Steps |             |   |   |   |                    |
| 2  |                                   |             |   |   |   | Validation Results |
| 3  |                                   |             |   |   | HIOS Issuer ID, Service Area ID                             | 18637, VTS001      |
| 4  | Review                            | Review step | Review description and procedure  | Step description  | Source  |                    |
| 5  | Validation 1                      |             |   |   |   |                    |
| 6  | 1                                 |             | Determine whether service area includes a full or partial county on the basis of the response to the template question "Does this service area include a partial county?" |   | Service area template and Zip codes by county from Geo map. |                    |
| 7  | 1                                 | a           |   | Determine value (Y/N) for partial county column in service area template. If no, mark as met and leave remaining steps blank. If yes, leave this step blank and go to step 2. |   |                    |
| 8  | Validation 2                      |             |   |   |   |                    |
| 9  | 2                                 |             | Determine whether partial county justification provided.  |   | Partial County Justification                                |                    |
| 10 | 2                                 | a           |   | Determine if partial county justification was provided. Is so, mark as met and go to step 3. If no, mark as not met.  |   |                    |
| 11 | Validation 3                      |             |   |   |   |                    |
| 12 | 3                                 |             | Determine whether partial county justification text provided in the supporting document is acceptable.  |   | Partial County Justification                                |                    |
| 13 | 3                                 | a           |   | Review justification to determine if it is acceptable. If yes, mark as met and go to step 4. If no, mark as not met.  |   |                    |
| 14 | Validation 4                      |             |   |   |   |                    |

Read the *Step descriptions* in column D carefully since steps may entail multiple plans under each provider and a comparison of Service Area templates.

To complete *Validation 1-4*, use Service Area Templates data from *Partial County* for *HIOS Issuer ID* you are validating.

**Service Area v2.91** | All fields with an asterisk (\*) are required

To validate, press the Validate button or Ctrl + Shift + V. To finalize, press the Finalize button or Ctrl + Shift + F

Click Create Service Area IDs button (or Ctrl + Shift + S) to create service area ids based on your state

Service Area IDs will populate in the drop-down box in Service Area ID column

For each row, enter one county for that Service Area ID (unless the Service Area covers entire state)

HIOS Issuer ID: 18637

Issuer State: VT

Create Service Area IDs

| Service Area ID*                    | Service Area Name*                    | State*   | County Name  | Partial County  |
|-------------------------------------|---------------------------------------|--|--|---|
| Required: Enter the Service Area ID | Required: Enter the Service Area Name | Required: Does this Service Area cover the entire state? | Required if State is "No": Select the County - FIPS this Service Area covers | Required if State is "No": Does this Service Area include a partial county? |
| VTS001 Fake Service Area 1          |                                       | Yes  |  |   |
| VTS002 Fake Service Area 2          |                                       | No   | Addison - 50001  | No  |
| VTS002 Fake Service Area 2          |                                       | No   | Bennington - 50003   | No  |

2. The worksheet determines overall compliance for each provider based on the *Validation Results (Met or Not Met)* for the *Service Area* requirements.

|    | A  | B                  | C  | D  | E   | F   | G             |         |

## XIII. NETWORK ADEQUACY REVIEW

The *Network Adequacy* review includes different processes for evaluating network adequacy including compliance with a current or proposed state network adequacy review, accepting attestations from accredited issuers, or requiring issuers to submit a network adequacy plan.

1. **Use the Network Adequacy section in QHP Application and Network Access Plan to complete the *Network Adequacy* review.**

2. Use the drop-down menus to indicate if provider attestations to the compliance elements are **Met** or **Not Met**.

|    | A  | B                  | C   | D  | E  | F   | G       | H       |         |
|----|--|--------------------|---|--|--|---|---------|---------|---------|
| 1  | <b>Network Adequacy Review Process Steps</b> |                    |   |  |  |   |         |         |         |
| 2  |  |                    |   |  |  | <b>Validation Results</b>   |         |         |         |
| 3  |  |                    |   |  |  | HIOS Issuer ID:   | 18637   | 30942   | 33674   |
| 4  | <b>Review</b>                                | <b>Review step</b> | <b>Review description and procedure</b>   | <b>Step description</b>  | <b>Source</b>                                      |   |         |         |         |
| 5  | <b>Validation 1</b>                          |                    |   |  |  |   |         |         |         |
| 6  | 1  |                    | Verify attestations.  |  | Network Adequacy section in QHP Application System | Met   | Not Met | Not Met |         |
| 7  | 1  | a                  |   | Check issuer attestation responses. If sufficient, mark as met. If not, mark as not met.   |  |   |         |         |         |
| 8  | <b>Validation 2</b>                          |                    |   |  |  |   |         |         |         |
| 9  | 2  |                    | If using Accreditation OR the Network Access Plan to determine network adequacy, review applicable information. |  |  |   |         |         |         |
| 10 | 2  | a                  |   | If using Accreditation to determine network adequacy, check results of accreditation review. If accreditation requirement was met, mark as met. If not, mark as not met. | <a href="#">Accreditation review</a>               | Met   | Met     | Not Met |         |
| 11 | 2  | b                  |   | If Network Access Plan was submitted, review to determine if all required elements were included. If yet, mark as met. If not, mark as not met.                          | Network Access Plan                                |   |         |         |         |
| 12 | 2  | c                  |   | If Network Access Plan was not submitted, determine if justification was provided. If justification is sufficient, mark as met. If not, mark as not met.                 | Network Access Plan                                |   |         |         |         |
| 13 |  |                    |   |  |  |   |         |         |         |
| 14 |  |                    |   |  |  | Based on the previous validation steps, the network adequacy review requirement for this issuer is: | Met     | Not Met | Not Met |
| 15 |  |                    |   |  |  |   |         |         |         |
| 16 |  |                    |   |  |  |   |         |         |         |
| 17 |  |                    |   |  |  |   |         |         |         |

Use the drop-down menus to indicate if provider attestations to the compliance elements are **Met** or **Not Met**.

The worksheet determines overall compliance for each provider based on the *Validation Results* (**Met** or **Not Met**).

3. The worksheet determines overall compliance for each provider based on the *Validation Results* (**Met** or **Not Met**) for the *Network Adequacy* requirements.

- After you have manually populated **Met** or **Not Met** for each issuer's plan in the Master Review Tool *Network Adequacy* tab, open the Master Review Tool *Review Summary* tab to see the auto-populated results.
