Lesson 4

Whether you are filing to one state or multiple states, SERFF’s Filing Wizard makes the process quick and easy. Speed-to-Market Tools such as the NAIC Product Coding Matrices and Uniform Transmittal Documents are built into the system. Instance and user preferences and other ease of use features make creating and submitting a SERFF filing simple. A single, efficient system means less time creating and submitting your filing, which translates into increased productivity. This lesson covers the basics of preparing a SERFF filing.

This lesson covers the following topics:

- Create a Filing
- Create a Single/Multi State Filing
- P&C Filing at a Glance
- LAH Filing at a Glance
- Attaching Files for Schedule Items
- Bypass/Satisfy
- Templates
- Requesting Confidentiality

Step 8 of the Filing Wizard
Create a Single/Multi State Filing

Step 1- Create a Filing

The first step in the Filing Wizard is to accurately complete the following fields.

- **Business Type**: In accordance with the NAIC Speed to Market tools, there are two Business Types: Property & Casualty, and Life, Accident/Health, Annuity, Credit. The Business Type can be predefined in the ‘User Preferences’ area of SERFF. Once set in ‘User Preferences’, this field will default to the defined Business Type without the user selecting it on each filing. The Author has the ability to change Business Types as some Authors cross business areas and types.

- **Product Name**: The Author enters the name of the product that they are submitting. This is a required field on the filing.

- **Project Name**: The Author may enter a project name for this filing. This is not a required field.

- **Project Number**: The Author may enter a project number. This is not a required field.

- **Other Authors**: The Creator or Author of the filing may assign Other Authors to a filing(s). Once given permission as an Other Author, full access to the filing is granted.

The Creator or Author can remove themselves as an author if needed. This would prevent the Creator from getting unwanted messages about filings to which they are no longer responsible. However, the Creator or Author must select an additional author before they will be able to progress to Step 2 of the Filing Wizard.
Step 1 – Create a Filing

1. Click on the ‘Business Type’ drop down box and select appropriate ‘Business Type’ for filing. If the setting has been pre-determined in the users’ ‘User Preferences’, this field will be automatically populated, but can be changed if needed.
2. Enter Product Name for Filing.
3. Enter Project Name for Filing.
4. Enter Project Number for Filing.
5. Assign Other Authors if needed. Other Authors can also be added later in the process. Highlight the name of the Other Author and click on the button.
6. Click on the button to advance to Step 2.
If the Author clicks on the Cancel button all information completed at Step 1 will be lost.

Step 2 - Select States

The Select States step allows the Author to choose a single state or multiple states for which the contact is authorized to file. Hold down the Ctrl or Shift key to select multiple states from the list.
Step 2 – Select States

1. Select the state(s) for the filing.
2. Click the Next button to continue to advance to Step 3.
3. Click the Previous button to change data entered on Step 1.
4. Click the Save and Close button to save changes and continue to work on your filing later. This places the filing “In Process Filing Constructors”.
5. Click the Cancel button to cancel the filing entirely.

The “In Process Filing Constructors,” found by clicking the My Draft Filings link, is where all filings are stored if the Author has not completed all of the Filing Wizard Steps. When the Author is ready to resume the draft filing, simply click on the filing and the filing will open to the last updated step in the Filing Wizard.
Step 3- Select Types of Insurance

Step 3 of the Filing Wizard exhibits improvements made by states to promote uniformity as well as automation that results in speedy filing creation for industry users. SERFF has incorporated the NAIC Uniform Product Coding Matrices, a key Speed to Market and uniformity tool, into the Wizard Type of Insurance Selector.

The Wizard Type of Insurance Selector will only display on multi-state filings. The Author can select from the “Wizard Type of Insurance Selector” or select from the TOI drop down next to each state.

**Wizard Type of Insurance Selector:** The Author selects the Type of Insurance from the Wizard Type of Insurance Selector drop down. For those states that have implemented the Product Coding Matrix and accept the Type of Insurance (TOI) specified, the information will auto populate for each state selected.

For the states that haven’t implemented the Product Coding Matrix, the Author will have to click on the drop down arrow next to the TOI for each state.

Click the Add State or Remove states button to change the states included in the filing.

3. If there is not an exact match for the Type of Insurance, when using the Wizard Type of Insurance Selector, click the drop down next to each applicable state and select the appropriate TOI.
In the example below, notice that Nebraska does not accept the TOI specified. The Author would then be required to select a TOI from the offerings presented in the TOI drop down list specific to Nebraska.

A state can be added or removed at this point by clicking the **Add or Remove States** button.

4. Click on the **Next** button to advance to Step 4.

**Step 4 – Select Sub-Type of Insurance**

Select the Sub-Type of Insurance. The Sub-TOI drop down arrow will list those Sub-Types that are available based off of the TOI selected in the previous step.

**Wizard Sub-Type of Insurance Selector:** The Author selects the Sub-Type of Insurance from the Filing Wizard Sub-Type of Insurance Selector drop down. For those states that have implemented the Product Coding Matrix and accept the Sub-Type of Insurance (Sub-TOI) specified, the information will auto populate for each state selected.
For the states that haven’t implemented the Product Coding Matrix, the Author will have to click on the drop down arrow next to the Sub-TOI field to select the Sub-TOI for that state.

**Multi-State Filing**

**Step 4 - Select Sub-Type of Insurance**

For states that have implemented the Product Coding Matrix, select the Sub-TOI by using the Wizard Sub-Type of Insurance Selector or by using the state's specific functionality.

In the example below, notice that Nebraska does not accept the Sub-TOI specified. The Author would then be required to select a Sub-TOI from the offerings presented in the Sub-TOI drop list specific to Nebraska.

When Filing Types are selected using the Filing Type Selector, Filing Types will auto-populate for those states that have implemented the standard naming convention. The Filing Types listed next to each state contain all of the Filing Types that have been setup by the state and are based on the TOI and Sub-TOI selected.

**Step 5 – Select Filing Types**

1. Using the Filing Type Selector, place a checkmark next to the Filing Type(s) applicable to the filing. Wherever there is an exact match, the Filing Type for the state will auto-populate. If there are no Filing Type matches, select the appropriate Filing Type for each state.

2. Click on the **Next** button to advance to Step 6.
Selecting more than one Filing Type will create unique filings for each type selected. In the example above we have selected “Form” and “Rate”. In Step 6 there will be six filings displayed for the three states.

Step 6 – Confirm Selections

Step 6 displays a summary of the filing for review and confirmation of all the data entered in previous steps. Click on the button to make changes to the filing, prior to saving. Once the button is clicked, changes to the prior Filing Wizard values cannot be changed.

Step 7 – Select Companies and Contact

The Author selects the contact and company or companies for the filing. All contacts and companies need to be created in both the Companies and Contacts views (Settings) prior to completing the Filing Wizard. The Industry Configuration Manager is responsible for adding contacts and companies. Refer to Lesson 2 for instructions.
Step 7 – Select Companies and Contact

Select a Contact: Larry Johansen

1. Select the contact from the drop down list.

2. Select the company or companies and click on the > or Move All button. Multiple companies can be added at one time holding down the Ctrl or Alt buttons on your keyboard.

3. Click Next to advance to Step 8.
Step 8 – Selection Companies

When multiple states are selected in the filing, the Author will select the companies for each state. Clicking on the `Select All Companies` button places a check(s) next to each company. Clicking on the `De-Select All Companies` button will remove the check(s).

Based on a state setting, states can pre-determine if multiple companies are allowed on a single filing. If the state has established this functionality and multiple companies are allowed, company fields will auto populate if the company’s profile reflects that it is licensed in that state. If multiple companies are not allowed by the state, SERFF will break out the filing automatically for the industry.

Step 8 – Select Companies for States

1. Click on the Next button to advance to Step 9.

Step 9 – Default Filing Data

In Step 9 of the Filing Wizard, the Author has the opportunity to enter the required Filing Description. This is intended to replace a state’s Cover Letter requirement, but a Cover Letter may still be required – please check each state’s individual requirements. In addition, the Author may enter data for certain fields on the filing. These fields will vary by Business Type and can be modified later. This is the point in the creation of a filing where users begin to see differences between PC and LAH.

- **Filing Description**: This area can be used in lieu of a Cover Letter or Filing Memorandum and is free-form text. This is a required field.
- **Company Tracking Number**: This field allows the user to enter a company tracking number. This can be very useful for companies that are creating multi-state filings that share a Company Tracking Number. This is not a required field.
- **Submission Type (LAH only)**: Select New or Resubmission. If Resubmission, provide the state tracking number for the prior Submission if it was provided by the state. If no state tracking number is available, and the prior filing was made in SERFF, provide the prior filing’s SERFF Tracking Number. If neither is available, leave this blank.
- **Implementation Date Requested (LAH only)**: The date the industry would like to have the product available to sell.
- **Lead Form Number (LAH only)**: Lead Form Number of the policy, rider, endorsement, etc.
- **Overall Rate Impact (LAH only)**: This is the statewide average percentage change to the Accepted rates for the coverage’s included for each company.
- **Market Type (LAH only)**: An identification of the targeted group or individuals. If Group is selected (see below), fields for Group Market Size and Group Market Type are presented.
• **Effective Date Requested (New or Renewal – P&C only):** This is the effective date the company is requesting their product be available to sell. It is not necessarily the date the filing officially becomes effective. The State Insurance Department will determine the definitive effective date. This is also where the company can indicate the different effective dates for new or renewal business. (P&C only).

• **Add Rate Data? (P&C only):** Filers can indicate whether they will provide information relevant to rates with this submission. This setting can be overridden on individual filings.

• **Status of Filing in Domicile:** This field is used to indicate the status of a product filing in a company’s domiciliary state. This is not a required field.

• **Date Approved in Domicile (LAH only):** Date contract or other filing or form filing was approved in state of domicile.

• **Domicile Status Comments:** This is a free-form text field in which companies can supplement Domicile Status information. For example, if a form is pending in a company’s domiciliary state.

• **Reference Organization (if applicable – P&C only):** The name of the advisory organization—i.e. ISO, NCCI, AAIS, etc. or an Insurance Company name if a “me too filing” is permitted. Some states allow companies to reference another company’s filing. A “me too” filing is when one company adopts another company’s filing. Usually, they are not part of the same group. *You should check with each state to determine their rules on these filings.* If permitted, use this area to indicate either an advisory organization name or “me too” company name.

**Reference Organization Number & Title (if applicable – P&C only):** This is the unique number that the reference organization gives to the filing. It is generally not the same number as the circular number.

**Advisory Org Circular (P&C only):** This is a unique number that references the circular number.

### Supporting Documentation

The Supporting Documentation tab provides functionality for attaching information to a filing that might be required when submitting a SERFF filing. Clicking the tab displays a list of state-defined requirements.

Each requirement has an option to Bypass or Satisfy. If the Author chooses to Bypass the requirement, an explanation is required. If the Author chooses to Satisfy the requirement, the Author must first either attach a file or check **No Attachment Required**. Once one of the above has been completed, the Author may enter an optional comment pertaining to the requirement.
The Author can expand, collapse, or bypass multiple requirements. When collapsed, only the **Requirement Name** and its **Status** (No Action Taken, Satisfied, or Bypassed) are visible. When a requirement is expanded, the Author can also see the state’s description of the requirement and any attachments the state has added for the requirement. Links in the requirement description will be active, meaning they can be clicked and a new window will open with the web address referenced.

Clicking the Satisfy button reveals the following options:

- **Comment text box**- Comments may be added after attaching a file.
- **No Attachment Required check box**- Use this check box to indicate that no attachment was required for this item. This will allow the requirement to pass completeness validation when submitting the filing to state regulators.
- **Attach Files button**- Use this button to attach supporting documentation to this requirement.
- **Reset button**- Clears all information from the requirement and resets the status flag to “No Action Taken” (this is applicable to both satisfy and bypass).

The Status Flag Legend is located at the bottom of the page. Each symbol is described for easy reference. When a requirement is satisfied, the flag becomes a green dot with a white check mark inside.

Users may review Supporting Documentation by clicking on the plus sign (expand button). Clicking the expand link reveals the information contained in the comment box and the attached files are listed below the comments.
The Author can add one or more items of Supporting Documentation in addition to the list provided, which is generated from the state’s Submission Requirements for the selected TOI/Sub-TOI/Filing Type combination. For each item of Supporting Documentation added, the Author must provide a Name and Comments or one or more attachments. The Author may also supply both comments and attachments.

Any of the information on this tab can be modified until the time the filing is submitted with the exception of removal of any requirement items created from the state Submission Requirements list. Once the filing has been submitted, new or revised items can be added, but the original submission cannot be changed or removed. The State can define a requirement as Non-Bypassable. When the Author views the requirement the only available button will be Satisfy.

View Additional Information

The view additional information button under the Supporting Documentation tab will display information provided by the state to assist the filer in completing the supporting documentation requirements.

If a state does not have State Specific Fields defined; this tab will not appear on the filing.

Companies and Contacts

This is the section of the filing where the Author views the company and contact information. The State Insurance Department will also view company and contact information here. This information was specified on Step 7 of the Filing Wizard, but can be modified prior to submission.

A company can be added to the filing by selecting the company name in the drop-down and then clicking Add. Companies can also be removed, but there must be at least one company and one contact on the filing. Multiple companies may be added to a filing, but only one contact per filing is permitted.
Companies and Contacts

1. Click on the \textbf{Change} button to change the contact for the filing.
2. Click on the \textbf{Add} button to add additional companies to the filing.
3. Click on the \textbf{Remove} button to remove companies from the filing.

If the filing is eligible for EFT, the filer must enter an amount. If no fees are to be submitted, the filer must check the ‘Bypass’ box in order to submit the filing. If the state charges per company, there will be a field next to each company in which the filer is submitting EFT.

Companies without a Payer UNID cannot be included on an EFT submission.

If the state charges per filing, the filer must select one of the companies from the dropdown list to which the Filing Fees should be attributed.

New or additional fees may be sent on a previously submitted filing if it is eligible for EFT. While in view mode, click on the Filing Fees tab and click ‘Submit Additional EFT Fees.’ A window will appear in which you can enter the fee amount and submit.
Filing Correspondence

The Filing Correspondence tab is where communication will be stored between the industry and the state. The Filing Correspondence tab will contain Notes to Filer, Notes to Reviewer, Filer Notes, Amendments, Objections Letters, Responses, and Dispositions. The links will not be available until the filing is submitted.

Submit Filing

This will submit the filing to the state selected.

1. Click on the Submit button to send the filing to the state.
