

SERFF 7.59.0 Release Notes

SERFF 7.59.0 was released to production on Thursday, June 10, 2021. The release contains a variety of enhancements, bug fixes and performance improvements. This release also includes a few technical updates that should have no impact to users.

Enhancements in SERFF 7.59.0

Billing Export (Industry)

A total time has been added to the billing export for filing and plan management transactions.

Form Schedule (State & Industry)

A field for 'Replaced Edition Date' has been added to the Action Specific Data column on the Form Schedule tab when 'Replaced' or 'Revised' is selected from the Action list.

NAIC Logo (State & Industry)

The logo in SERFF has been updated to include the new NAIC logo.

Plan Management (State & Industry)

There is now a "Most Recently Viewed Binders" window that will display the last 25 binders a user has viewed. The viewed queue will begin with binders accessed after the 7.59 release went into production.

Filing Search (State & Industry)

Users with saved searches can load and execute a saved search with one action button, 'Load and Search'.

SERFF Help (Industry)

The on-demand industry tutorials have been updated with new video tutorials.

Bug Fixes in SERFF 7.59.0

Compact Filings (Industry)

Users can now remove companies from draft compact filings.

Filing Submissions (Industry)

Users without the EFT User role are now restricted from submitting filings with EFT payments.
